

TransCity Limos Features New Chrysler 300 Limousine, along with Live Web Chat

Chandler, Ariz. [January 12, 2013] – TransCity Limos, a Chandler, Arizona-based limousine and sedan transportation company, has announced today that it is adding a new, state of the art Chrysler 300 limousine to its fleet. They have also launched a new live Web Chat feature to their website that will help their customers get quicker information within minutes.

Not only will visitors to the Web site find pictures and descriptions of the different types of events that the company caters to, but now with the live chat option, customers will be able to ask any variety of questions and receive an answer almost instantly to make the reservation process even easier than ever before.

“We wanted to make the experience of reserving a limousine for any event as stress free as possible,” said Jason Knight, General Manager of TransCity Limos. “We are also very excited to add a brand new Chrysler 300 Limousine to our fleet.”

The Chrysler 300 Limo features flat screen TV’s, touch screen controls and dual AC’s to help the limousine stay even cooler than your standard AC unit. The new limousine is being added just in time for the busy upcoming concert season and Waste Management Phoenix Open.

“Our fleet of limos and sedans are kept impeccably clean and maintained. Our company is one you can trust and most of all, be able to sit back and enjoy your event,” says Knight.
